## GRAMMAR REVIEW

**Prepositions**

Prepositions are one of the eight parts of speech in English. It shows the relationship between parts of a sentence. For example: “The turkey is **ON** the table.” The preposition “on” shows the relationship between the turkey and the table. The turkey could be under the table, beside the table, behind the table, in front of the table, and so on.

**Prepositions tell us where the turkey is.**

A **prepositional phrase** begins with a preposition and ends with a noun or pronoun. And a **prepositional phrase of place** includes a preposition to tell us where something is located.

**Examples:****on** the table**to** the kitchen**from** the refrigerator**in** their chairs**with** the gravy boat**beside** it**beside** the potatoes**down** the hallway
